FULLTEC

Fulltec Boron Max is a 100% water soluble, highly concentrated (17%) Boron product that contains two sources of Boron and the Fulltec technology for maximum efficiency and longer-lasting effect. That's more flowers retained and higher yields.

Main Benefits:

Performance

The two sources of Boron in the product guarantee maximum plant uptake and a long-lasting effect.

Technology

The Fulltec technology improves plant absorption capacity, solubility, and compatibility with other chemicals.

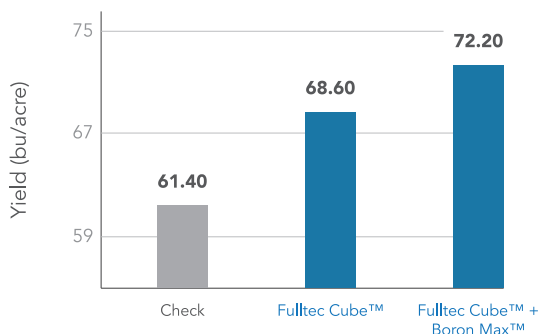

Application

Foliar applications of boron are generally more effective than soil applications in supplying boron to the crops.
