

NODOFIX

Nodofix Soy contains highly effective rhizobia strains that increases root nodules that facilitate Nitrogen fixation into usable forms for plant development

Benefits: More nodulation, better nutrient absorption.

Rate: Seed Treatment: 3oz/cwt
In-furrow: 6.0 fl oz/acre

Timing: Seed Treatment or In-furrow

Active Ingredients: Bradyrhizobium japonicum & Bradyrhizobium diazoefficiens.

FULLTEC PLUS ST

This is a nutritional package containing macro and micronutrients with agents to stand your ground against SDS (*Fusarium sp.*), and most nematode species from beginning to end of the cycle. It can be used as a seed treatment or as a foliar application in the first stages of the crops growth.

Benefits: Stronger roots, improve plant defenses, and helps build stress resistance.

Rate: 6oz/100 lbs of seed

Timing: Seed Treatment or In-furrow

Ingredients: Nitrogen, Phosphorus, Boron, Cobalt, Molybdenum, Zinc.

FULLTEC BORON MAX

Fulltec Boron Max is highly concentrated, 100% soluble boron product that contains two sources of Boron for maximum nutrient efficiency and longer-lasting effects. Use Fulltec Adjuvant for better results.

Benefits: Slow release Boron, high concentration, aiding flower retention.

Rate: 0.5 - 1.0 lb/acre

Timing: V5 - R3

Active Ingredients: Boric Acid, Di-sodium octaborate, Phosphorus acid, and Citric acid.

FULLTEC PLUS FOLIAR

Fulltec Plus Foliar improves crop health, vigor, and stress tolerance. It helps plants to overcome the stress caused by herbicides like Fomesafen, reducing injury and aiding in the recovery process.

Benefits: PPO recovery, macro and micro nutrients, stress resistance.

Rate: 4.0 - 5.0 oz/acre

Timing: V2 - V5

Nutrients: Nitrogen, Phosphorus, Boron, Cobalt, Molybdenum, Zinc.

IMPORTANT: Always read and follow label instructions when using this product.

FULLTEC CUBE

Fulltec Cube is a strong blend of plant health components that will activate plant's natural defense system, making it more resistant to fungal and bacterial attacks. Excellent partner for fungicides.

Benefits: Disease prevention, plant health, fruit formation.

Rate: 2.7 - 4.0 oz/acre

Timing: V5 - R3

Active Ingredients: Nitrogen, Phosphorus, Sulfur, Boron, Copper.

FULLTEC ZINC

Fulltec Zinc is a fully available and secure source of Zinc, Manganese and Sulfur developed to increase plant health and nutrition. This product acts in synergy with pesticides to fulfill Zn deficiencies caused by cool, wet, or cloudy conditions by (or at the time of) glyphosate application or in high pH soil.

Benefits: Increases tolerance to diseases and abiotic stress, more absorption of Zinc due to its formulation, plant health.

Rate: 4 fl. oz/acre

Timing: V4-R1

Ingredients: Zinc, Manganese, Sulfur.

FULLTEC K

Fulltec K activates both plant's metabolism and root-system enzymes responsible for controlling grain filling within the plant which makes the product unique for late season application.

Benefits: Pod/ear Filling, increased photosynthesis, balanced nutrition.

Rate: 4.0 - 5.5 oz/acre

Timing: R1 - R6

Nutrients: Potassium, Boron, Cobalt.

FULLTEC NITRO

Fulltec Nitro is a combination of a more stable nitrogenated product with essential amino acids developed for plant recovery from abiotic stresses by reactivating its growth which allows the plant to fully express the yield potential even after unfavorable conditions.

Benefits: Minimize Nitrogen runoff, bushel saver, disease prevention.

Rate: 14 fl. oz/acre

Timing: V3-R1

Ingredients: Nitrogen, Phosphorus, Cobalt, Copper, Molybdenum.
